FIG. 4

		510	511	512	520	521	522	530	531	532	540	541	542	550	551	552
		513			523			533			543			553		
203	Column Number		1			2			3			4			5	
	Original Statement		5			6						N			a	
410	Template String		#			#			A			*			no character	
	Composed Statement		5			6			A			*			a	
270	Comment		The # in the template indicates that the 5 is to be preserved.			The # in the template indicates that the 6 is to be preserved.			The A in the template indicates the A overrides the character in the original statement.			The * in the template indicates the * overrides the character in the original statement.			The template string has no corresponding character for this position, so the character in the original statement is used.
